

LifeGroup Discussion Guide Week of June 24, 2018

1. What resonated with you in this past Sunday's message?
2. When David began to feel conviction of his sins he immediately began to focus on the character of God. His grace, lovingkindness, and compassion. Yes, we should feel deep remorse over our sin but conviction shouldn't lead us to depression. Conviction should eventually lead us to praise. What is the difference between feeling bad over our sins and walking in God's grace?
3. Confession is so essential in bringing revival. We must first realize there's something wrong before God can make it right. If we believe God knows all things anyways, why do we have such a difficult time coming clean with our sins?
4. Sometimes, the Spirit will lead us to confess sins to others that we have wronged. Often people will say, "I only need to get right with God." But that's not what we see in Scripture. Why are we so hesitant to make things right with others?
5. We saw that in David's life, he was so broken over his sin he asked the Lord to search every *hidden* place in his heart. What does it look like to give God complete access to our lives in order for Him to cleanse us?
6. David cried out to God not to remove His Spirit from his life. What brings us to the place of desperation in our lives where instead of walking with God we are begging God not to remove His power from our lives?
7. Will you prepare your heart for revival? How can you do this with others at Fellowship Pickering?
